

We are leaders in the wood processing sector, with over 50 years of experience behind us. A family business that uses the most advanced technology to produce high-quality, high-performance products for the industrial sector and the general public. An international company with a presence in over 30 countries, based on the reliability of its products and a highly qualified technical team with a constant focus on customer satisfaction.

Our commitment to protecting the environment and research and development throughout the industrial process, mean our products are capable of meeting the most demanding standards, in addition to meeting all environmental legislation. The IRURENA brand corresponds to its industrial division. A specialist brand that meets the highest expectations of wood industry professionals.

SOLVENT

WOOD STAINS AND PIGMENTS

IRUKOL

- Concentrated bases. Patinas and stains. (solvent-based, water-based and hydroalcoholic).

IRUGLAS

- Glaz.

PIGMENTS

CELLULOSE FINISHES

SANDING SEALER

- Clear and pigmented cellulose sanding sealers.

IRULAK AND GLOSSY

- Clear and pigmented cellulose lacquers.

POLYURETHANE FINISHES

AZPIFOND

- Conventional and acrylic polyurethane basecoats (clear and pigmented).

GOYLAKE

- Conventional polyurethane lacquers and acrylics (clear and pigmented).
- Laquers with textured effects, metalized and glass varnishing products.

ACID CATALYZED

IRUNYTAL

- Clear and pigmented basecoats and lacquers.

REDOX CURING

IRUPOL

- Clear and pigmented redox curing basecoats and lacquers.

IRUPOL ALIL

- Clear and pigmented redox curing basecoats and lacquers without styrene.

IRUBAL

- Clear and pigmented redox curing polyester topcoats.

UV CURING

IRUVIOL

- UV curing polyester primers. (clear and pigmented).

ENAPOL

- UV curing polyester lacquers. (clear and pigmented).

IRUCRIL

- UV curing acrylic primers. (clear and pigmented).

ENACRIL

- UV curing acrylic lacquers. (clear and pigmented).
-

WATERBORNE**

STAINS AND PIGMENTS

URATIN

- Stains.

URAPAST

- Pigments.

SINGLE PACK WATERBORNE FINISHES

HIDRON

- Clear and pigmented basecoats.

HIDRAL

- Clear and pigmented lacquers.

DOUBLE PACK WATERBORNE FINISHES

POLHIDRON

- Clear and pigmented basecoats.

POLHIDRAL

- Clear and pigmented lacquers.

UV CURING WATERBORNE FINISHES

UV HIDRON

- Clear and pigmented basecoats.

UV HIDRAL

- Clear and pigmented lacquers.

WATERBORNE OUTDOOR VARNISH***

IRUXIL W-I

- Impregnations.

IRUXIL SBI

- Anti tannins impregnations.

IRUXIL PRIMER SBF

- Clear and pigmented basecoats.

IRUXIL SBA/SBAE

- Clear and pigmented lacquers.

** Products that comply with VOC regulations.
(European directive 2004-42-CE).

*** These products are homologated in accordance with the European Standard EN-927 "Durability in outdoor conditions".

OTHERS

KOLORE

- Solvent-based tintometric system.

- Water-based tintometric system (valid for interior and exterior, the latter only for opac lacquers).

IRUFIRE

- Solvent and water based fire retardant processes.
- For the building sector (EUROCLASS for floors and walls and ceilings).
- For the naval equipment sector.

IRUPLAST / PRIMER

- Single-component physical drying products for varnishing various plastic and metal supports.

ZEROBAC

- Processes with antimicrobial protection based on polyurethane, UV and water (bacteria and COVID-19).

ANTI-GRAFFITI

- Water-based two-component anti-graffiti process.

CRYSTAL EPOXY

- Two-component transparent epoxy resin for high thickness fillers.

ANTI-SCRATCH

- Solvent-based polyurethane with extreme resistance to scratching and polishing.

FOOD CONTACT

- Water-based polyurethane suitable for food contact.

SELF-RECOVERING HIGH GLOSS

- Self-recovering high gloss polyurethane finish, recovers scratch marks.
